

COUNCIL UPDATES, AMENDMENTS AND QUESTIONS

THURSDAY, 18 JULY 2019

AGENDA

1. Apologies for absence

No update – as set out on the agenda

2. Declarations of interest

No update – as set out on the agenda

3. Minutes of the meeting held on 9 May and 16 May 2019

The Chair will move that the minutes of the meeting be signed as a correct record. The only part of the minutes that can be discussed is their accuracy.

No update – as set out on the agenda

4. Announcements

To be made on the evening

5. The Mayor to make presentations of certificates of Public Service to former Members of the Council

To be made on the evening

6. Questions from members of the public

To receive and answer any questions from the public.
(Questions must be received in writing by Democratic Services no later than noon on Tuesday 16 July 2019)

From: Mr Heath

To: Cabinet Member for Environment and Enforcement

Once (or if) a climate emergency has been declared by the council, what does it intend to do to:

1. Reduce the level of climate change being caused by

greenhouse gas emissions from Basingstoke and

2. Limit the impact climate change will have on the people of Basingstoke

When does it intend to do this and what specific and measurable targets is it going to set to ensure the action being taken is effective?

7. **Petitions**

To receive petitions.

(Notice of petitions must be received in writing by Democratic Services, no later than noon on Tuesday 16 July 2019)

No update – as set out on the agenda

8. **Allocation of Seats to Political Groups**

Report of the Monitoring Officer

No update – as set out on the agenda

9. **Resignations and appointments**

- a) to receive resignations from Committees and to make any necessary re-appointments

Changes to committee places are as set out in appendix 1 to the updates and amendments

- b) to receive resignations from Outside Bodies and to make any re-appointments and (ii) fill any existing vacancies.

The following nominations have been received:

Basingstoke Music Festival Committee – Cllr C Kinnear
Hampshire Building Preservation Trust Limited – Cllr P Miller

10. **Ombudsman Decision - 17 012 432**

Recommendation from the Cabinet Meeting held on 11 June 2019

1. Council notes and acknowledges the important public role of the Ombudsman in scrutinising and reviewing the actions of local authorities, together with the legally binding nature of findings of maladministration and injustice that has made against the Council
2. Council endorses the actions already taken, namely the written apology to the applicant and the procedural change to the published scheme of allocations and that housing decision letters now advise recipients of their right to complain to the

ombudsman.

3. Council authorises the payment of compensation to the applicant of £4,500 as recommended in the Ombudsman's report.
4. Council endorse the rejection of the recommendation in the report to make the applicant top of the list for each eligible property he bids for until that bid is successful, for the reasons stated in paragraph 3.8.1(c) of the cabinet report as it was not considered appropriate for Mr X to have priority over applicants who may be fleeing abuse or violence, or are dealing with acute and life limiting medical conditions
5. Council endorses the action taken to backdate the applicant's housing application to January 2013 reinstating him to the position that he would have been in had the maladministration not occurred and to note that this alternative approach has led to the applicant being rehoused.
6. The recommendations in paragraphs 2,3,and 4 form the Council's formal response to the Ombudsman's recommendations under section 31 of the Local Government Act 1974 and section 5A of the Local Government and Housing Act 1989 and that the ombudsman be notified of the actions that the Council has taken

No update – as set out on the agenda

11. Revenue and Capital Outturn for 2018/19

Recommendation from the Cabinet Meeting held on 11 June 2019.

That Council note:

- 1) Net revenue expenditure on services in 2018/19 resulted in a favourable variation of £0.37M.
- 2) The contributions at year end to specific reserves of £0.31M, with a residual sum of £0.06M transferred to the Stability and Resilience reserve as detailed in section 4 of the report.
- 3) The reasons for both revenue and capital variances as detailed within the body of the report and in appendices 3 and 8 of the report. Capital expenditure in 2018/19 was £15.86M. This is £1.49M less than the last reported position.
- 4) Contributions to and from reserves as set out in Appendices 4 and 5 of the report.

That Council approve:

- 5) The slippage and re-phasing of the capital programme for 2019/20 to 2022/23 detailed in Appendix 10 of the report.

No update – as set out on the agenda

12. Appointment of the Executive Director of Borough Development and Deputy Chief Executive

Recommendation from the Human Resources Committee held on 3 July 2019

That Council approve the appointment to the post of Executive Director of Borough Development and Deputy Chief Executive

No update – as set out on the agenda

13. Transport Strategy

Recommendation from the Cabinet Meeting held on 9 July 2019

That Council adopt the Transport Strategy set out in Appendix One, to incorporate any amendments made to the strategy by Hampshire County Council at their 16th July adoption meeting as set out on the update sheet.

No update – as set out on the agenda

14. Housing Investment Strategy - Improving Access to home ownership

Recommendation from the Cabinet Meeting held on 9 July 2019.

That Council agree a new capital scheme 'Council help to buy: Equity Loan Scheme', with a budget of £0.580m funded from S106 receipts.

No update – as set out on the agenda

15. Treasury Management Annual Report 2018/19

Report of the Executive Director of Finance and Resources (Section 151 Officer)

No update – as set out on the agenda

16. Annual Overview and Scrutiny Report 2018-19

Report of the Interim Democratic Services Manager.

No update – as set out on the agenda

17. Standards Committee Annual Report 2018-19

Report of the Monitoring Officer.

No update – as set out on the agenda

18. Motions to Council

Report of the Monitoring Officer.

No update – as set out on the agenda

19. Variation to the Scheme of Delegation

Report of the Monitoring Officer

No update – as set out on the agenda

20. Notice of Motion - Basingstoke & Deane Climate Emergency

Please note an alteration to the Motion as highlighted in red text.

Proposer: Cllr Ashfield
Seconder: Cllr McCormick

This Council notes that:

Climate change and the effect it is having on our planet, and will have in the years to come, has been scientifically proven and this Council fully recognises the need for society and all levels of government to respond urgently to prevent and lessen the damaging effects of human activity driven climate change.

The United Nation's Intergovernmental Panel on Climate Change (IPCC) report published in October 2018 confirms that the world has until 2030 to avoid an increase in global temperatures above 1.5°C, at which point the impact of global warming would have devastating impacts on the planet and people's lives.

On 2nd May 2019 the UK's Committee on Climate Change report stated that the UK should legislate for and reach a net-zero emissions goal by 2050, so as to end its contribution to global warming within 30 years.

The BDBC Horizon 2050 vision makes it clear that the citizen of Basingstoke value highly their environment, clean air and clean water. This vision states that "Basingstoke will generate all the energy it needs and consumes all the waste it creates before 2050."

We have just eleven years to make significant cuts in the greenhouse gases the vehicles, homes and businesses of our borough create.

Bold and early climate action can deliver economic benefits in terms of new jobs, economic savings and market and social opportunities.

Council further notes:

That meeting the challenge the environment and climate emergency poses and achieving a net zero carbon Basingstoke & Deane by 2030 will require a comprehensive response from not just the Council, but also from regional and national government, as well as private organisations, businesses and individuals.

That significant elements of the action necessary to achieve a net zero carbon Basingstoke & Deane by 2030 are out of the control of the Council. However, the Council can lead local action that brings key partners together at all governmental levels, as well as in the wider public and private sector to drive forward a net zero carbon Basingstoke & Deane by 2030.

That meeting the challenges of the environment and climate emergency must be done in such a way that does not penalise local people on low incomes and does not limit the Council's ability to address important issues, such as the need for housing, whilst recognising that building a greener and more inclusive economy with fairness at its heart can lead to better outcomes and opportunities for local people.

This Council resolves to **request Cabinet to:**

1. Declare a 'Climate Emergency';
2. Make Basingstoke and Deane Borough Council operations carbon neutral by Dec **2025** by ensuring that 100% of its heating and electrical needs are met from renewable sources and cease the purchase and/or lease of any vehicle that is not low carbon;
3. Pledge to work towards making Basingstoke & Deane net zero carbon by 2030, ahead of the current 2050 target, ensuring that reducing carbon emissions is embedded in all relevant Council decision making;
4. Develop carbon reduction pathways, climate compliant strategies and plans, working with the County Council, LEP and other partners in both the public and private sector to prioritise all opportunities to introduce such zero carbon and sustainable policies, action plans and targets;
5. Undertake a Local Plan review where the Borough proposes policies for adoption in all areas that will drive zero carbon and sustainable development in Basingstoke & Deane;
6. Ensure local people are able to contribute to the formulation and

scrutiny of the strategic actions needed to address the environment and climate emergency by consulting on proposals and by organising an annual 'Tackling the Environment and Climate Emergency' meeting, hosted by the CEP Committee, in addition to the wide-range of existing opportunities for local people to make representations to the Council;

7. Receive a report in early 2020 on what strategic actions the Council is taking to address the environment and climate emergency, including an action plan and milestones to achieve emissions reductions within the Council's control, and to share details of representations being made to other institutions to achieve reductions in emissions outside of the Council's direct control.

21. Notice of Motion - Manydown Country Park

Proposer: Cllr Frost
Seconder: Cllr Bound

This Council requests that the Cabinet Member for Regeneration and Property and the Cabinet Member for Planning, Infrastructure and the Natural Environment work with our appointed master-developer partners for Manydown to ensure that as soon as possible after planning approval for the Manydown development, the Country Park is opened and made accessible for all the residents of the Borough including Rooksdown, Wootton St Lawrence, Winklebury, Buckskin and Oakley.

No update – as set out on the agenda

22. Notice of Motion - Housing Standards

Proposer: Cllr Ruffell
Seconder: Cllr Capon

This Council is concerned that there are new homes being built in the Borough which, despite the best efforts of the Borough Council, have faults and design failures that cause considerable anxiety to their new occupants.

This Council believes that all developers should seek to build every new home to high standards: a home that everyone would be happy to live in. That is what this Council has committed to do at Manydown.

This Council believes that if new houses are built, that have failures in design or rapidly deteriorate in quality, then the developers who built those houses should be held to account and made to remedy those failures or defects.

This Council welcomes the Government's consultation

<https://assets.publishing.service.gov.uk/government/uploads/system/up>

loads/attachment_data/file/812038/Redress for Purchasers of New Build Homes and the New Homes Ombudsman .pdf

This Council requests that the Cabinet Member for Planning, Infrastructure and the Natural Environment write to the Government in response to the consultation encapsulating the views of Full Council in relation to this consultation.

No update – as set out on the agenda

23. Notice of Motion - Climate Emergency

This Motion has been withdrawn

Proposer: Cllr Mahaffey
Seconder: Cllr Carruthers

Council notes:

1. That the 'Special Report on Global Warming of 1.5°C', published by the Intergovernmental Panel on Climate Change in October 2018, (a) describes the enormous harm that a 2°C average rise in global temperatures is likely to cause compared with a 1.5°C rise, and (b) confirms that limiting Global Warming to 1.5°C may still be possible with ambitious action from national and sub-national authorities, civil society and the private sector.
2. All levels of government (national, regional and local) have a duty to limit the negative impacts of climate breakdown.
3. At present the world is on track to overshoot the Paris Agreement's 1.5°C limit before 2050. In order to reduce the chance of runaway global warming and limit the effects of climate breakdown, it is imperative that we as a species reduce our CO₂eq (carbon equivalent) emissions from their current 6.5 tonnes per person per year to less than 2 tonnes as soon as possible.
4. Individuals cannot be expected to make this reduction on their own. Society needs to change its laws, taxation, and infrastructure to make low carbon living easier and the new norm.
5. Basingstoke and Deane Borough Council has already made positive progress, but more can be done. The Independent Panel on Climate Change in its October 2018 report was very clear that action from all parts of society is necessary and local government has a responsibility to lead the way.
6. Bold local climate action can deliver economic and social benefits in terms of new green jobs, economic savings and

market opportunities, as well as much improved well-being for Basingstoke and Deane residents – for example through encouraging healthy, active travel and improving green spaces and access to nature.

7. Councils around the world are responding by declaring a 'Climate Emergency' and taking action to address this emergency.

Council requests that:

1. This Council declares a 'Climate Emergency';
2. Basingstoke and Deane Borough Council pledges to make its activities carbon neutral by 2030, taking into account both production and consumption emissions;
3. We receive a report to full Council within six months setting out immediate actions the Council will take to address this emergency;
4. We ensure that all strategic decisions, budgets and approaches to planning decisions are in line with a shift to zero carbon by 2030;
5. We request that the Council's Cabinet and Policy and Scrutiny Committees consider the impact of climate change and the environment when implementing and reviewing Council policies and strategies, with 'Environmental Impact' listed in reports and documents;
6. We support, influence and inspire other relevant agencies, businesses and residents within our Borough towards making the entire area zero carbon within the same timescale and to consider their other obligations to our natural environment such as the use of single use plastics;
7. We actively lobby the Government to provide additional powers and resources needed to meet the 2030 target;
8. We work collaboratively with local groups such as Basingstoke Transition Network and the Basingstoke Clean Air Campaign to develop effective strategies and policies to reach net zero emissions by 2030.

No update – as set out on the agenda

24. Notice of Motion - Climate Emergency

This Motion has been withdrawn.

Proposer: Cllr McKay
Seconder: Cllr G James

Council notes:

That the impact of climate change is already causing serious damage around the world.

That, according to the Intergovernmental Panel on Climate Change (IPCC) special report published in January 2019, the world is now on track to overshoot the Paris Agreement's 1.5°C limit before 2050 – the consequences of which would be dire and irreversible.

That the IPCC report tells us that limiting global warming to 1.5°C may still be possible – but only with ambitious action from national and sub-national authorities, civil society, the private sector, and local communities.

That a strategy based on year on year reduction of carbon emissions is no longer enough.

That a growing number of UK local authorities have already passed "Climate Emergency" motions.

That the UK parliament has passed a "Climate Emergency" motion and that the UK Government has acknowledged there is a climate emergency.

Council therefore commits to:

Declare a "Climate Emergency".

Make the Council's activities carbon neutral by 2030.

Make the Borough carbon neutral, taking into account both production and consumption emissions, by 2050.

Work with partners and stakeholders across the Borough to deliver these new goals through all relevant strategies and plans and drawing on local, national and global best practice.

Publish these commitments in a Basingstoke & Deane Borough Climate Strategy; bringing forward the renewal of the current document that covers 2014-2020.

25. Notice of Motion - Recycling from flats and apartments

Proposer; Cllr Jack Cousens
Seconder; Cllr Janet Westbrook

Council notes that;

- 1) In the 2017/18 “Let’s Recycle” analysis of local councils, Basingstoke & Deane Borough Council ranked 316th out of 345 authorities
- 2) In their analysis, our council sent 28.6% of our household waste collection for reuse, recycling or composting.
- 3) Maximising recycling leads to a better environment
- 4) There is potential to increase the recycling rates for flats and apartment blocks across the whole of Basingstoke & Deane

Council recommends that;

- 1) Steps are taken to improve the recycling rate from its current levels
- 2) Investigates any barriers to maximising recycling potential from flats and apartment blocks
- 3) Creates a task & finish group to investigate the matter further and report its findings to CEP

No update – as set out on the agenda

26. Questions to the Chair of Cabinet and/or a committee

To receive questions from members in relation to the minutes of the meetings detailed below:

Committee	Meeting Date
Council	9 May 2019
Cabinet	14 May 2019
Development Control Committee	15 May 2019
Council	16 May 2019
Economic, Planning and Housing Committee	6 June 2019
Standards Committee	10 June 2019
Cabinet	11 June 2019
Development Control Committee	12 June 2019
Scrutiny Committee	18 June 2019
Community, Environment and Partnerships Committee	19 June 2019

No update – as set out on the agenda

27. Questions from Members of the Council on notice

Question 1

From: Cllr Cubitt
To: Cabinet Member for Planning, Infrastructure and Natural Environment

In 2014 our Transport Assessment by Parsons Brinckerhoff and commissioned by the Council was extremely clear that in the event that Manydown was built, we needed to build a Western Bypass joining up to Junction 7 M3. At our EPH Committee on 1st November 2018 and clearly recorded in the minutes of that same meeting the Committee requested that, inter alia, the Western Bypass be mentioned in Strategy Theme 5 and Strategy Theme 7. The Western Bypass has not been mentioned. EPH Committee's requests have been ignored. Why?

Question 2

From: Cllr Potter
To: Chair of the Human Resources Committee

The CX in an email to Cllr Tilbury on the 26th June stated that the termination payments made recently to the ex -Deputy Chief Executive and separately to the ex- Head of Law and Governance were made in accordance with the Council's procedures and the Law.

I have been examining Guidance issued under Section 40 of the Localism Act 2011 and I draw members attention to the attached IMG 0004 above and in particular paragraph 13 of the guidance issued by the Secretary of State in 2013.

Very clearly Councils are expected through a meeting of Full Council to be given the opportunity to vote on any severance package of £100,000 and above.

Additionally the guidance issued requires Councils to be given the opportunity to vote before large salary packages in respect of any new appointments are confirmed .Again the threshold set out is £100,000 and we have adopted this practice.

Indeed we have an agenda item at the Council meeting on the 18 July relating to the appointment of the Executive Director of Development and Deputy Chief Executive with its £119,000 remuneration package so we follow the guidance in this particular case.

Why in the last 6 years since the guidance was issued has BDBC not been advised to adopt the elements that relate to Severance Payments?

Question 3

From: Cllr Lovegrove
To: Cabinet Member for Environment and Enforcement

An eighty two year old Tadley resident reported her bin was damaged whilst it was been emptied she was told she would have to pay for the replacement.

It took several calls involving the Citizens Advice to resolve, thus causing much stress to this lady .

Does the portfolio holder consider this fair treatment for our elderly residents .

Question 4

From: Cllr Tilbury
To: Chair of the Human Resources Committee

On the 23rd Nov 2018 Cllrs and staff were advised that the previous Deputy Chief Executive was leaving the Council to work on the launch of a new company, in their own words this was a "unique opportunity".

However as we are now aware from the Council's Statement of Accounts, this individual had left as the result of a termination agreement costing taxpayers £95,772 for a member of staff with barely a year's service. Combined with a further £121,615 paid to the previous Head of Legal and Governance along with the substantial cost to recruit new staff to fill these posts has wiped out the entire amount raised by this Council when it increased the Council tax earlier this year.

Unlike redundancy payments, there is little clarity regarding how these payments are justified legally, morally, or even how they are calculated. I had intended to raise this lack of accountability with the head of Human Resources, only to discover they too had left the Council.

Given the clear public disquiet that these payments have created, would she agree that there is an urgent need to address this issue, given the large amounts of public money involved?

Question 5

From: Cllr Cubitt
To: Cabinet Member for Planning, Infrastructure and Natural Environment

Basingstoke is already suffering from an infrastructure deficit of approximately £200m; Doctors' Surgeries & water sources to name but a few. How can we trust this Council to make sure that the quality of

life of our current residents is not further destroyed by the continued failure by various parties to honour the explicit commitments to pre identified infrastructure required when building over 1,000 houses per annum?

Question 6

From: Cllr Cubitt

To: Cabinet Member for Planning, Infrastructure and Natural Environment

Given the Approved Local Plan (2011-2029) is being reopened, please can the Cabinet confirm they will include, de minimus, a requirement in Policy EM10 to Compliance of our Government's Technical Housing Standards 2015 and adherence to any subsequent legislation in this regard.
